

FIXPRINT®

SPECIALTY THERMAL PRINTING SYSTEM

Versatility of On-Demand Printing

Our in-plant FixPrint® system allows you to print at your own facility. On-demand printing enables you to create a number of thermal printed labels specific to your needs. This gives you the self-sufficiency that you need and contributes towards your goal of on-time finished goods delivery.

Worldclass Printing

Our FixPrint® system was created especially to supply care labels for the underwear, jeanswear and the uniform industry which need labels that will endure strong industrial washes such as stone bleaching, and enzymatic washes.

FixPrint® is the only one of its kind available with high definition printing HDP which insures clear legibility after being submitted to heavy laundering processes.

Patented System

This FixPrint® system holds a patent for its state of the art technology. Its double-sided simultaneous printing in 1 color on the face and on the back is realized at high level of performance to cut work time efficiently.

For more information on our offerings, please contact your sales representative.

FX Ultrasonic cutter - stacker

The FixPrint® System is composed of three main parts: The thermal printer, the Fix Print oven and the Ultrasonic Cutter. This last part was developed to cut woven-edge tapes, including our very own Finosoft® label tape which holds a 100% non-fray guarantee at the cutting area. This cutter provides a non-rough cut for maximum comfort and softness. It comes with its own stacker.

SYSTEM SPECIFICATIONS

Thermal Printing

Printing method	Thermal transfer
Printing density	300 dpi
Printing speed	120mm/sec
Print width	64mm
Print length	250mm
Number of print heads	1/1
Media type	Finosoft® and Ultrasoft woven polyester label tape and woven-thermal label tape
Media length	30mm min. 250mm max.
Interface	Parallel (Sentronic), Serial (RS-232C), USB
Fonts	Windows fonts, alpha-numeric characters, alpha-numeric S characters, Chinese characters 16, OCR-B fonts, special characters

Ultrasonic cutter

Non-stop cutter	Ultrasonic cutter
Cutting speed	120mm/sec
Maximun cutting width	48mm
Stacker	Adjustable at 160mm

Entire FixPrint® System

External dimensions	75" H x 65" L x 20" W
Weight	275lbs + 100 lbs for shipping wooden box
Power source	AC 100-220V, 50-60Hz
Power Consumption	4,150 Watts
